### ARTS EXPO WRAP UP

WOW! What a talented group of students we have living within the cluster group of schools of the Centenary Suburbs. For those of you that missed attending the Arts Expo on Wednesday 22 October you really did miss an amazing showcase of artwork from our students. The pieces on display in the school hall were truly inspiring. But the visual pleasure did not stop there. You were then given the option of being taken on a guided tour by our Year 7 leaders to view the installation pieces which are a culmination of many months of hard work. From the Prep and Year 1 silhouettes to the bollards and resin tiles of Year 7 the colour and design cannot be given justice with words. We now truly have a school to be proud of and are providing the students with an inspirational environment in which they can grow and learn.

On Saturday 24 October we were treated to performances by the many musical ensembles and choirs within our cluster group of schools at Centenary High School. The entire week of entertainment finished with a fantastic Gala Concert at the high school on Saturday night. Again the students showed off their talents - this time musically. Jamboree Heights performances opened the concert and the entire night was finished with a stunning performance from Centenary High School.

Of course none of this would have been possible without the tireless input of our dedicated teachers and a band of parent helpers. This group was led by Amanda Hawkswell - our very own artist in residence. Amanda has spent many hours working on this project and gone over and above the call to achieve what can only be described as an amazing result. We also thank Amanda's family for their patience and tolerance of this demanding task.

Jamboree Heights State School students should be proud and hold your heads high. You have left a beautiful legacy to the school for many students to enjoy over the coming years.

Congratulations to all involved for a truly successful week!
